Organic Confectionery Polishes & Anti-Stick Coatings

Westport, CT – (April 24, 2015) - Edible coatings leader, Mantrose-Haeuser Co., Inc., has expanded its line of high performance polishes and antisticking coatings for the confectionery industry.

Certicoat® 590 ORG is an organic certified anti-stick agent providing excellent sheen and good flowability properties required for packaging of organic fruit snacks and organic gummies. Our Certicoat products are lipid based coating systems that prevent sticking and deliver an excellent shine on starch, pectin and gelatin based gummies. .. Certicoat® 590 ORG is certified organic in compliance with the USDA's National Organic Program (7 CFR 205).

Crystalac® ORG is a confectionery glazing agent that contains food grade orange shellac and certified organic alcohol. It can bring a brilliant shine to both chocolate and sugar shell panned candies. Crystalac® ORG may be used on products labeled as "Organic" as prescribed by the Organic Materials Research Institute (OMRI).
