

Certiseal®

Aqueous Coatings

A family of high performance and economical aqueous coating systems for the nutritional supplement & pharmaceutical industries.

The Certiseal Series products are formulated with 100% GRAS ingredients, incorporating a natural film forming resin. This product line provides improved dissolution and disintegration, offering an attractive glossy appearance and excellent adhesion and barrier properties. They are superior alternatives to synthetic and solvent-based systems.

Features & Benefits:

- Taste & odor masking
- Excellent seal coating
- Fast film build rate
- Provides protection from environmental conditions
- Compatible with other coating polymers to achieve immediate or controlled release
- FDA approved

Additional Information:

- FC 300A - Immediate release
- A - 100 - Delayed release
- A - 200 - Delayed release

Typical Applications:

- Tablets
- Soft gelatin capsules
- Granulation

Technical Information

Non GMO	Does not contain Genetically Modified Organisms (GMO's) and is not subject to GMO labeling requirements.
Certification	Certified Kosher Pareve by the Chicago Rabbinical Council.
Allergen Free	This product does not contain any allergens.
